RE: ACETONE INCREASE 10/5

Dear Customers,

Effective October 5th or as contracts allow Matrix Chemical will increase Acetone prices by 5cpp.

Due to the Illinois lock closures, inventories are extremely low. Recent storms in the gulf have delayed railcar and barge shipments to all areas, so please be sure to allow extra lead time when places orders.

Customers will be limited to their historical volumes.

If you have any questions please contact your sales representative.

Sincerely,

Carter Sullivan

President

Matrix Chemical, LLC.
